

Are you an Adventurer?

Leadership Saskatoon has been offering a community leadership development program for over 10 years in the Saskatoon community, and we have a network of 240 graduates from all sectors in the city. This year we have room for 28 people and are currently accepting applications.

WHO EMBODIES THE “ADVENTURER”?

- Open to exploring what is possible
- Willing to consider new perspectives
- Ready for an opportunity to learn and unlearn
- Seeking a network of other adventurers in our community
- Prepared to work hard and commit to a 10 month program (1 day per month)

WHY?

Now more than ever, communities need strong leaders in all sectors - leaders who demonstrate compassion, understand the interconnectedness within a community and have the ability to foster change in collaboration with others. Leadership Saskatoon provides the space to explore this kind of leadership.

WHAT IS YOUR CAPACITY AS A LEADER IN A COMMUNITY?

Whether young or seasoned, the Leadership Saskatoon program offers you the opportunity to learn more about yourself and to discover your leadership capacity in the community of your choice, be it home, work, your city, your nation or beyond.

WHAT CAN YOU EXPECT?

You will be embarking on a learning journey where you will be challenged to test your assumptions, to examine your values, and to seek to understand the complexities and layers within our community. Our aim is to help you build a solid foundation of understanding and skill that will challenge you to consider greater possibilities for yourself as a citizen and a leader in our community.

At the monthly learning days (called Challenge Days), you will engage with other participants and learn from each other as well as from facilitators and leaders in our community. Content is presented in a variety of ways and is suitable to all learning styles. Learning occurs via self-reflection, small group discussions and interactive activities as well through handouts, articles and video clips that connect the content from one learning day to the next. The skills you will learn are transferable to a variety of settings.
